

Bread At \$1000 a Loaf Is Prospect Of The Future, When World Dries Up

Water Is Slowly But Surely Disappearing From Face of the Earth; in Time the Whole Earth Will Be Trackless Desert and All the People Die of Starvation.

—BY—
Rene Bache

WASHINGTON, D. C., Nov. 17.—The cost of food is steadily rising up. There is an undeniable scarcity of many things to eat. But we are, at all events, nearly all of us—get enough to fill our stomachs. We ought to be thankful, for the time is destined to arrive when the entire human race will perish of starvation, when the man with money would gladly pay \$100 for a loaf of bread.

This is not a mere "what-if" night-mare, evolved by the imagination of scientists. The prospect seems only too certain and inevitable. The race, like the individual, must perish, and the race of the future will be extinct.

Now, taking a big geographical jump, let us look clear across the world, to consider the water problem. It is today a world-wide problem. The water of the world is today a world-wide problem. The water of the world is today a world-wide problem.

Now, taking a big geographical jump, let us look clear across the world, to consider the water problem. It is today a world-wide problem. The water of the world is today a world-wide problem.

Bedtime Story For The Little Ones

UNCLE WIGGLY AND THE CHEESE.

By HOWARD R. GARRIS

"This is going to be a hard winter, Uncle Wiggly," said Nurse Jane "Pussy" Wazzy, the muskrat lady, to the bunny rabbit, as they sat in their hollow stump hibernation one day.

"How so?" asked the rabbit. "Well, everything to eat is going to cost so much, cheese is going higher and as for coal, we're lucky if we have enough to keep the kitchen warm, to say nothing of the parlor."

"Well, I must see what I can do. I'll like it, for it's always so cheerful," went on Mr. Longears. "But haven't we enough to eat, Nurse Jane? I put lots of carrots in the cellar and corn to last until spring."

"That's all right," said the muskrat lady. "I don't know how I am to get through the winter without cheese."

"Then why do you eat like a cat?" asked Uncle Wiggly. "Well, I must see what I can do. I'll like it, for it's always so cheerful," went on Mr. Longears. "But haven't we enough to eat, Nurse Jane? I put lots of carrots in the cellar and corn to last until spring."

"That's all right," said the muskrat lady. "I don't know how I am to get through the winter without cheese."

"Then why do you eat like a cat?" asked Uncle Wiggly. "Well, I must see what I can do. I'll like it, for it's always so cheerful," went on Mr. Longears. "But haven't we enough to eat, Nurse Jane? I put lots of carrots in the cellar and corn to last until spring."

"That's all right," said the muskrat lady. "I don't know how I am to get through the winter without cheese."

TOO FAT?

Here's a simple, safe and reliable way to reduce your weight.

Maybe you have nearly worn out body and patience trying to secure satisfactory weight reduction by following drastic rules requiring starvation dieting or tireless, troublesome exercises, or drugging.

Even so, you should not lose hope and imagine that you must carry through life a load of burdensome, unhealthy flesh. Here's a very simple, easy-to-follow system of treatment that is said to bring truly remarkable results for others, and it will be easy to prove what it can do for you.

Go to your druggist and get a small box of oil of korein capsules, one capsule after each meal and one before retiring at night; also follow the other simple directions that come with the capsules.

This method should reduce your weight ten to sixty pounds (or whatever you wish) in a short time and leave your system healthy and vigorous.

Oil of korein is absolutely harmless, pleasant to take and its treatment is surely worthy of a fair trial if you want to become thinner, healthier and younger in appearance.

NOTE LEVERAGE ROOFLESS MOUTH CLEAR LEVERAGE NILL

The Advantages of Roofless Plate

1. As the part next to the gum is of very soft rubber, it gives in showing, as the natural teeth, thereby enabling you to eat food impossible with the old style plate. You simply grind your food with the old style plate. You cannot chew it.

2. As the roof of the mouth is clear, there is nothing to rest on the hard bone in the mouth. It can be put in immediately after extraction and the plate settles with the gums as there is no hard ridge in the roof of the mouth to hold it back. And for the same reason as you can readily see, it cannot possibly "rock." When these plates are put in immediately after extraction and "settle" with the gums, of course there is no plate in the world can come anywhere near the fit of the Roofless Plate.

3. Naturally they can be made to fit any mouth—and mouths that cannot wear old style plates—as the roof, shallow, flat, is not to be taken into consideration at all. They have a 100 per cent better suction—soft rubber as against hard. Thin as paper—against the one-fourth inch
